# PARTNERING WITH DARLINGTON FC

Darlington FC is a special and very different kind of football club. It is owned by its fans, lead by its volunteers and has its roots firmly at the heart of its local community.

The role that Darlington FC plays in the lives of many different groups of people across the town, and beyond, cannot be underestimated and it provides interest, passion and enjoyment for thousands of supporters.

The club is one promotion away from the National League, a further promotion away from the Football League, and is hoping to be playing football at its new purpose-built home in the town in the next 2-3 years.

As such, this is an exciting opportunity for your business to both support our community club and benefit from a unique proposition by considering a sponsorship or advertising partnership with Darlington FC at a crucial time in the club's history.

**The support of both local and national businesses to our club is just as vital as the support from our fans.**

# HISTORY

# HISTORY

Darlington Football Club is fan-owned and volunteer-run. It is the absolute epitome of a 'community club'. 141 years' old, with a rich and fascinating history, it has been owned and run by its fans since 2012. As it stands, just over 1,270 fans enjoy a c90% majority shareholding in the club.

Following three periods of administration between 2003 and 2012, the club was demoted from the National League to the Northern League (four divisions); it had no home and no playing staff.

For a while, it looked terminal. It literally had to start again, at the very bottom of the footballing pyramid. However, the club was acquired by its fans in May 2012 with the hope of a new and more sustainable future.

Whilst ground sharing with neighbours Bishop Auckland, the club remarkably achieved three promotions in four seasons. The club is now firmly established in the National League North, a position it has maintained for the last seven seasons. The club made the symbolically important move back Darlington on Boxing Day 2016, defeating Halifax Town 3-2 at a packed Blackwell Meadows, a new home rented from Darlington Rugby Club.

The move was only made possible thanks to the tremendous fundraising efforts of the fans and the club is currently preparing plans to build a new ground within the town. This will be home.

By the start of the 2023/24 season, Darlington fans had raised around £2m since acquiring the club eleven years previously. An incredible achievement and the absolute definition of 'fan ownership'.

***"BY THE FANS, FOR THE FANS..."***

# MISSION

# MISSION

***"SUCCESS ON THE PITCH, SUSTAINABILITY OFF THE PITCH..."***

Our ultimate aim is a return to the Football League whilst ensuring financial stability off the pitch, so Darlington FC is here for generations to come.

We aim to continue to build a progressive, sustainable football club that is financially responsible, and that operates with transparency, accountability, and integrity.

A club that is a positive force for change in our local community, and that provides opportunities for people from all backgrounds to come together and share their love of football.

We will achieve this mission by investing in our infrastructure, primarily a new stadium as a long-term home, plus our people, and our community, and by creating an inclusive and supportive environment where everyone feels welcome and valued.

We will work hard to build a strong and successful football team, while always putting the needs and interests of our fans first.

As a fan-owned and community-driven club, we are committed to putting our supporters at the heart of everything we do, and to promoting equality, diversity, and inclusion in all aspects of our operations.

Through our commitment to excellence, innovation, and community engagement, we aim to be a leading football club that inspires and unites our fans, and that contributes to the growth and development of our local community.
